SPECIAL PIECES

Polka is a beautiful, triangular patterned glass mosaic. The mosaics are made out of recycled glass that has been ground, moulded and pigmented to provide a unique colour. Both colours feature a combination of matt and gloss pieces to create a tactile, multi dimensional surface. In addition, Dove features silver metallic pieces.

The colour representations shown in this data sheet are as accurate as the limitations of the printing process will allow. Due to the manufacturing process of our floor tiles there may be a small variation in the PTV value. The slip resistance values are correct at the time of testing and represent the standard production value. Inadequate cleaning and maintenance will lead to significant reduction in the slip resistance of any tiles. The pendulum test results have been displayed in line with H&S Executive guidelines whereby 0-24 represents high slip potential, 25-35 moderate slip potential & 36+ represents a low slip potential
