

# Glint

5 COLOURS / 3 SIZES / 1 FINISHES / 0 SPECIAL PIECES

Hand-craftsmanship and ever-changing materials recall a ceramic tradition in which imperfection and defects are an added benefit. Clear shade transitions embellished with dripping rust and iron, irregularities typical of the artisan production process. Strong shading, chipping and relief imperfections give the collection an exclusive look to wrap spaces in a newfound naturalness. Super-glossy concave and convex surfaces combined with three-dimensional structures bringing Glint to life. A palette of five colours, Bianco, Beige, Turchese, Giada and Grigio available in three different sizes: 100x100mm, 50x150mm and 75x200mm.

| 75x200          |
| 100x100         |

The colour representations shown in this data sheet are as accurate as the limitations of the printing process will allow. Due to the manufacturing process of our floor tiles there may be a small variation in the PTV value. The slip resistance values are correct at the time of testing and represent the standard production value. Inadequate cleaning and maintenance will lead to significant reduction in the slip resistance of any tiles. The pendulum test results have been displayed in line with H&S Executive guidelines whereby 0-24 represents high slip potential, 25-35 moderate slip potential & 36+ represents a low slip potential.
