OUTDOOR PORCELAIN

**YOUR SPACE.
YOUR WAY.**

Everscape™ is a range of specialised 2cm deep outdoor tiles with an amalgamation of 'FOREVER' and 'LANDSCAPE' embodied in its spirit.

This combination of elegant, simple design married with innovative technology allows you to make a real improvement to your outdoor space for years to come.

Extend your style outside and love your garden all year round!

**ESCAPE
AND
ENJOY**

From sun drenched patios and secret courtyard gardens to cosy city balconies and breezy beachfront terraces, our exclusive range of outdoor tiles will help transform every corner of your home into spaces you'll never want to leave; creating the perfect space for endless summers.

PORCELAIN

Porcelain is stain, fire and frost resistant, meaning little upkeep is needed, and with multiple ways to fit Everscape™, its an easy DIY solution for the budding landscape designer in all of us.

The 2cm depth coupled with the slip resistant surface provides ultimate durability for your outdoor space.

**RESILIENT
YET ELEGANT**

Everscape™ vs Traditional Slabs

Everscape™ offers a clean-cut edge for uniformity, and unlike traditional paving slabs, Everscape™ features a hardwearing finish available in a choice of colours and designs which are resistant to fading and staining.

This makes Everscape™ quick and easy to clean.

For that summer refresh, all you need is a power washer and a suitable outdoor cleaner such as FILA Outdoor Patio and Porcelain Cleaner.

Range Name	Everscape Enis

The colour representations shown in this data sheet are as accurate as the limitations of the printing process will allow. Due to the manufacturing process of our floor tiles there may be a small variation in the PTV value. The slip resistance values are correct at the time of testing and represent the standard production value. Inadequate cleaning and maintenance will lead to significant reduction in the slip resistance of any tiles. The pendulum test results have been displayed in line with H&S Executive guidelines whereby 0-24 represents high slip potential, 25-35 moderate slip potential & 36+ represents a low slip potential.

Stain
Resistant

High Slip
Resistance

The Everscape™ planks wood effect range, available in Oak and Grey, offers an easy maintenance solution to decking.

Traditional wooden decking needs to be maintained over the years with consistent staining and will eventually rot away, not only this, but it can become very slippery in wet weather conditions.

The vitrified porcelain of Everscape™ is hardwearing and resistant to staining, plus the laser printed finish prevents colour fading in direct sunlight; coupled with a high slip resistance makes Everscape™ Planks the perfect upgrade to regular garden decking.

Resistance to household chemicals and swimming pool salts	ISO 10545-13	Min Class GB	GB
Resistance to high concentrations of alkalis and acids	ISO 10545-13	Declare Value	GHB
Resistance to low concentrations of alkalis and acids	ISO 10545-13	Declare Value	GLB
Resistance to Stain	ISO 10545-14	Declare Value	Class 3
Reaction to Fire		Class A1 A1/FL	Class A1/FL

Slip Resistance Characteristics	Pendulum Dry (4S Slider 96) +36	Pendulum Wet (4S Slider 96) +36
Full Range	✓	✓

Recycled Content	0 %
Range Name	Everscape Cemento

The colour representations shown in this data sheet are as accurate as the limitations of the printing process will allow. Due to the manufacturing process of our floor tiles there may be a small variation in the PTV value. The slip resistance values are correct at the time of testing and represent the standard production value. Inadequate cleaning and maintenance will lead to significant reduction in the slip resistance of any tiles. The pendulum test results have been displayed in line with H&S Executive guidelines whereby 0-24 represents high slip potential, 25-35 moderate slip potential & 36+ represents a low slip potential.

EVERSCAPE™ - INTERLOCK

Utilising the technology and expertise made to create natural split face tiles, these Everscape™ porcelain tiles are calibrated to different thicknesses to perfectly emulate the beauty of true split face.

Available in four colourways, they coordinate with other tiles in the Everscape™ range to create a seamless and decorative finish to your outdoor space.

These interlocking porcelain wall tiles can also be used indoors for a rustic finish.
