# Zenn LVT

#### 12 COLOURS

Planks or tiles. Herringbone or concrete-look. Glue down or click installation. New-build or renovation. In the home or in a commercial space. With (click) or without integrated underlay (glue down). Whatever you're looking for, Zenn offers a perfect solution.

Besides all the perks of a vinyl floor, this collection provides the most beautiful and authentic look of nature. Whatever you opt for, this collection puts quality and beauty right at your feet.

Zenn 30 has a 0.3mm wear layer for moderate residential use and is available in both rigid click (2G) with integrated underlay, or glue-down.

Zenn 55 has a 0.55mm wear layer for intensive commercial use and is available in both rigid click (5G) with integrated underlay, or glue-down.

Glue-down is ideal if you want the floor to be extremely stable, whereas the rigid click is perfect for a speedy installation.

### WOOD EFFECT

All colours and designs are available in the following options and are sold per pack:

The colour representations shown in this data sheet are as accurate as the limitations of the printing process will allow. Due to the manufacturing process of our floor tiles there may be a small variation in the PTV value. The slip resistance values are correct at the time of testing and represent the standard production value. Inadequate cleaning and maintenance will lead to significant reduction in the slip resistance of any tiles. The pendulum test results have been displayed in line with H&S Executive guidelines whereby 0-24 represents high slip potential, 25-35 moderate slip potential & 36+ represents a low slip potential.

## STONE EFFECT

All colours and designs are available in the following options and are sold per pack:

#### **Rigid Click Tiles (30)**

- 457.2x914.4x5mm
- 0.3mm wear layer (residential)
- 4 sided micro bevels
- Rigid click 2G locking system
- Integrated acoustic underlay

#### **Glue-down Tiles (55)**

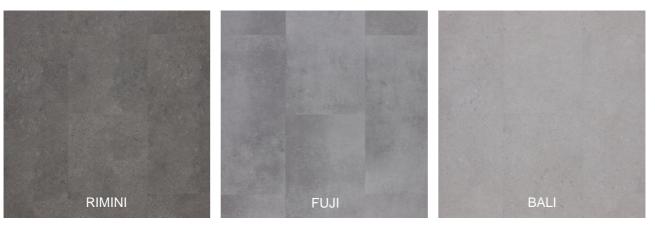

- 457.2x914.4x2.5mm
- 0.55mm wear layer (commercial)
- 4 sided micro bevels
- Glue-down

#### **Glue-Down Tiles (30)**

- 457.2x914.4x2mm
- 0.3mm wear layer (residential)
- 4 sided micro bevels
- Glue-down

#### Rigid Click Tiles (55)

- 457.2x914.4x6mm
- 0.55mm wear layer (commercial)
- 4 sided micro bevels
- Rigid click 5G locking system
- Integrated acoustic underlay
